caoscreo è eco

Crea design a basso impatto ambientale. Come?

Scegliendo il metallo, che è un materiale riciclabile

Impiegando il taglio laser e la piega che permettono una produzione on demand con una logistica snella e attenta agli sprechi

Avvalendosi di partner di fornitura certificati che rispettano l'ambiente

Realizzando così un prodotto tutto italiano!

caoscreo is eco

We create design with low environmental impact. How?

Choosing metal, which is a recyclable material

Using laser cutting and folding that allow a production on demand with an easy logistics and waste reduction

Working with certified suppliers that share the same environmental respect

Thus creating an absolutely Made In Italy product!

caoscreo es eco

Crea un design de bajo impacto ambiental. ¿Cómo?

Elegendo el metal, que efectivamente es un material reciclable

Utilizando el láser para cortar, plegar y así permitir una producción a pedido con una logística fácil y una reducción de los desechos

Trabajando con socios de entrega certificados, que respetan el medio ambiente

Creando así un producto totalmente Made in Italy!

caoscreo est eco

Il crée un design à faible impact environnemental. Comment?

Avec le choix du métal, qui est en fait un matériau recyclable

L'utilisation des lasers pour découper, plier et donc permettre une production à la demande avec une logistique facile et une réduction des déchets

Le travailler avec des partenaires de livraison certifiés qui respectent l'environnement

Une création totalement Made in Italy!

caoscreo ist eco

Ein Design mit geringer Umweltbelastung. Wie?

Mit der Wahl des Metalls, was ein recyclebares Material eigentlich ist

Der Einsatz von Laser fürs Schneiden und Biegen, der die Produktion auf Nachfrage mit einfacher Logistik und wenigem Abfall ermöglicht

Die Arbeit mit zertifizierten Lieferanten, die umweltfreundlich sind

Eine Kreation, die total Made in Italy ist!
